

IEEE FORMATS FOR SBGames 2019

- Your manuscript must strictly follow the IEEE style templates detailed in this document.
- Please do not reuse IEEE formats of previous SBGames conferences.
- **Any deviation from the IEEE format will be liable to summary rejection of the manuscript**, because inadequate formats (even with minor deviations) compromise the entire publishing process.

Please first read all the instructions very carefully (there are instructions related to equations, figures, tables, ...), which can be found at:

Then choose one of the following templates:
